New Book Teaches Evidence-Based Dentistry

This one-stop educational resource will help students learn how to harness the power of the latest scientific information and apply it to patient care.

Developed by the ADA Center for Evidence-Based Dentistry™ and written by leading EBD practitioners, *How to Use Evidence-Based Dental Practices* is the definitive new resource for learning how to:

- Quickly conduct searches for the latest research.
- Master the art of critically appraising clinical studies.
- Confidently apply the latest research to treatment.
- Incorporate clinical evidence into classroom instruction.
- Appreciate the role evidence plays in informing health policy.
- Teach others about practicing scientifically informed care.
- Access everything you need to become an EBD all-star.

This book will be published in fall of 2019 and will include a link to the e-Book.
