EVIDENCE-BASED CHAMPIONS

Daniel M. Meyer
Senior Vice President
Science and Professional Affairs
“Art and Science are the two greatest forms of escape from reality that humans have devised.”

Albert Einstein
ART AND SCIENCE COMPETITION
ORAL - SYSTEMIC RELATIONSHIPS

CAUSAL
ORAL - SYSTEMIC RELATIONSHIPS

CASUAL
“...the conscientious, explicit and judicious use of current best evidence in making decisions about the care of individual patients. The practice of providing care through evidence-based medicine means integrating individual clinical expertise with the best available external clinical evidence from systematic research”

(Sackett D, et al.).
EDDY DEFINITION

EBD is a set of principles and methods intended to ensure that, to the greatest extent possible, clinical decisions, guidelines and other types of policies are based on and consistent with good evidence of effectiveness and benefit.
EDDY DEFINITION

EBD is a set of principles and methods intended to ensure that, to the greatest extent possible, clinical decisions, guidelines and other types of policies are based on and consistent with good evidence of effectiveness and benefit.
Evidence-based dentistry (EBD) is an approach to oral health care that requires the judicious integration of systematic assessments of clinically relevant scientific evidence, relating to the patient’s oral and medical condition and history, with the dentist’s clinical expertise and the patient’s treatment needs and preferences.
Evidence-based dentistry (EBD) is an approach to oral health care that requires the judicious integration of systematic assessments of clinically relevant scientific evidence, relating to the patient’s oral and medical condition and history, with the dentist’s clinical expertise and the patient’s treatment needs and preferences.
We’ve decided to enter the world of social media and have created and started using a new hashtag on Twitter:

#EBDChamps

Please feel free to use it and tweet about the conference!
WELCOME TO A WEBSITE FOR EVIDENCE-BASED DENTISTRY

A practical resource for scientific evidence

Looking for answers? We provide systematically assessed evidence as tools and resources to support your clinical decisions: A practical approach to integrating evidence into your patient care!

About EBD

SYSTEMATIC REVIEWS & SUMMARIES

A database of studies on dental and oral health topics along with concise, user-friendly summaries. Read more

- Adjusting the pH of lidocaine for reducing pain on...
- Lamotrigin for acute and chronic pain
- Smoking cessation interventions among Hispanics in...

ADA CLINICAL RECOMMENDATIONS

Tools that provide guidance and assist you with clinical decision making. Read more

- Fluoride Supplements
- Oral Cancer Screening
- Reconstituting Infant Formula
- Sealants
- Topical Fluoride

RESOURCES

Additional support for evidence-based practice. Read more

- ADA Library: Member Access for Cochrane Reviews
- Cochrane Library
- JADA
- PubMed

HIGHLIGHTS

- APPLY NOW! - EBD Champions Conference July 28-30
- ADA/Forsyth Advanced EBD Course - September 19-23
- Access Chairside Guides to ADA Clinical Recommendations
- Clinical Recommendations on Reconstituting Infant Formula
- Clinical Recommendations on Fluoride Supplements
- ADA Members: Access Cochrane Systematic Reviews Here!
- Subscribe to the EBD website for automatic content updates
